Bathroom Reno

We just had Bathrooms R Us redo our ensuite in our 30 year old home. They completely gutted the bathroom, removing our old soaker tub and vanity and put in a beautiful new shower and double vanity. We could not be happier with how it all looks. Steve was so easy to deal with, and his assistant's Colin and Sarah were fantastic. So pleasant and professional. We also had our old PVC plumbing replaced at the same time and they were happy to assist with replacing drywall etc. We would highly recommend Bathrooms R Us!

Bathroom renovation

Very pleased with our new bathroom renovation that was completed in June. The work was completed in a timely manner - 2 weeks! Very professional, respectful and skilled workers! Would highly recommend.

Bathroom Renovation

Simply the Best! I've had two major and one minor renovations during my lifetime and none can hold a candle to this company. From beginning to end the install was flawless. The project team, Steve, Colin and Peter, were skillful, knowledgeable and extremely professional. On the day appointed, the team arrived on time, left everything clean every night and paid particular attention to details --always thinking of the customer. They treated my home as if it were their own. I was most impressed with their well manned, courteous, and respectful demeanor. When it was all over, I couldn't have wanted a better outcome. I would highly recommend Bathrooms R Us to anyone looking for high quality workmanship and a first class team. Thank you Steve, Colin and Peter for giving me an awesome bathroom.

Bathroom renovation

After considering several companies who were on this website we decided to engage the services of Bathrooms "R" US. After one meeting with

Steve, the owner, we received a detailed quote along with a time line for the work to gut and renovate our powder room and our main bathroom. This entire project was completed within the two week time estimate that Steve had given us and a return for one day to complete counter installation was because of some changes that we made mid project. The price was exactly what he had quoted us and the only addition was several extra things that we opted for during the project. The actual tear out and construction was done by Colin and Peter who are exceptional workers - they showed up on time and kept us completely in the loop with what was taking place. They did not hesitate to answer any questions we had and sought our input for such things as tile layout and positioning of grab bars and shower etc. Their painting and tiling skills were exceptional as was every other aspect of the work they did. Drop cloths were placed and removed at the beginning and end of every work day. We would highly recommend Steve and his team to anyone without hesitation. The story would not be complete without a mention of Sarah who took care of logistics. She sourced and delivered to the work site everything that was required for the job.

We were really pleased with speed, efficiency and quality of the work done on our main bathroom. Steve Edwards was most helpful and his two man crew, Colin and Peter, were first rate and clearly skilled. All debris from the initial tear out was disposed of promptly and the place was left neat and tidy at the end of each workday and at the end of the project. We are really happy with the end result.

Steve, Colin, and Peter did an excellent job. The team was very organized from the planning and preparation phase to the actual renovations. Our old house had some unexpected challenges which they were able to quickly find a way to solve. The work was completed on time and on budget. They also went the extra mile to take care of some small details. We are very happy with the quality of the work. We would highly recommend them.

2.5 Bathroom Reno

I am quite happy with the work Steve, Colin, and Peter did on my 2.5 bathrooms in the Burnaby area. From the initial quote and until the final walk through, the work was done on time and on budget. The quality of work was quite good. I was more than willing to pay for the extra work that came up once walls were opened up and on some higher quality materials than the initial quote.

Guest bathroom renovated

We received quotes from 3 of the top Homestars bathroom reno companies and choose this one for their price and product suggestions. The 2-man crew showed up exactly on time every day. They asked questions and pointed out concerns whenever there were potential issues. Extremely professional and even went above and beyond the bathroom reno itself (installed a custom heat vent cover that we had struggled with in the kitchen!) I have already recommended this company to my neighbor and we have booked them to do a main bathroom in 2 months time. Great work! And we are incredibly pleased with how the bathroom looks now!!

Bathroom renovation

We wanted a walk in shower constructed in an area 8 feet by 4 feet, which will include a toilet. I felt that it was a tall order and left it to Steve to figure it out. Lo and behold he came up with a plan that will create this. Steve and his crew of Colin and Peter went to work and they created the dream which pleased us tremendously! A beautiful walk in shower, toilet, storage cabinets and mirror in this small area! I think that he and his crew have done a great job and I have no hesitation in recommending Bathrooms"R" Us to those who wish to employ their services. Maniam Kuppusamy

Bathroom renovation

I can not say enough good things about Steve and his crew. We totally renovated a bathroom by removing a jet tub and replacing it with a one-

piece tub. The end result was really beautiful. I would heartily recommend Steve and his crew. The crew were efficient and polite at all times. There were a few glitches along the way which were met with aplomb. The work site was always neat and tidy and the debris was removed each day. Thank you, Steve and crew, for a job well done.

I.E

A job well done, on time and budget with excellent results!

Steve was kind enough to take the job last minute for us and the guys (Colin and Peter) were professional and went to great lengths to make sure we could have a great product while respecting a fairly tight schedule. We were more than happy with every last detail and would recommend them without a single doubt! Thank you guys, you are absolutely amazing at what you do and make it very obvious why people would hire a professional company instead of individual contractors.

I want to thank Steve, Colin & Peter for the great bathroom renovation we recently had done! From the small details such as protecting our floors with floor coverings to starting each day at exactly 8am. They took care of our house as if it were there's ...first class company! On time and on budget! Highly recommend

Bathroom Renovation

To start, Thank you very much for a beautiful bathroom. Steve, Peter and Collin, you did such quality work I will forever recommend your company to anyone I know. It was a seamless process that was completed exactly on schedule, despite having to fix 2 separate leaking pipe issues in my closet and kitchen. I am more than happy with the transformation you did, and the price was exactly what you quoted. To anyone that is considering using "Bathrooms R Us" for your bathroom renovation, do it! You will be impressed from the minute you meet Steve. He was at my house for 11:55 am for our estimate appointment that was scheduled for 12. He was friendly, professional, accurate and very attentive. I had many email exchanges throughout the process and Steve was always available to answer any questions I had. Best experience I could have imagined. My

daughter got to know all of you and she was so excited to be told what was happening each day. Thanks for taking the time! Thank very much Steve, Peter and Collin. Tasha

Double Bathroom Renovation**

We decided to hire Bathrooms R Us to renovate both of our bathrooms. This was a great decision. Steve and his highly skilled crew did a fantastic job far exceeding expectations. I have small kids and they actually looked forward to the guys arriving in the morning to begin their work day. They are extremely friendly and highly professional and have no problem explaining what they are doing at a moment's notice and also making suggestions concerning various options available to us as they progressed. At the end of every work day they cleaned up all their material and it was like they were never there. This is pretty important with two little guys running around and it was spotless when they departed everyday. Overall it was a painless process performed by a group of professionals that made the experience a great one for me and my family. Thanks very much Steve, Colin and Peter for a job well done. We had excellent service from Steve and his crew from Bathrooms R Us. Bathroom Reno fix

My contractor left in the middle of the job. He wasn't qualified to do the job. And left my bathroom in shambles. I was at wits end. My boyfriend called Bathrooms r us. Steve came over, he was horrified. But, he agreed to help. Steve & Mike fixed everything that went wrong. They did a great job, and I now have a working bathroom and they did it in the time frame they promised. It looks gorgeous, just like I imagined it! Wonderful job, and I'd recommend them. In fact I have! Thanks again!

Two Bathrooms Complete Renovation

From estimated quote to start-up, from tear-down to installation and straight on to clean-up, Steve and his crew are top of the line! Both our ensuite and our main bathroom were badly in need of renovation, and my wife who faces the challenges of her permanent disability in a wheelchair due to Multiple Sclerosis had accessibility issues that had to be addressed. Bathrooms R Us knew exactly what to do. They appeared on the job early in the month of May and within weeks, we had our bathrooms completely re-done. This was a huge job. All the flooring was removed the plumbing and electrical and drywall and ceilings were taken out and replaced. The tile job they did in both bathrooms was fantastic! Our bathrooms never looked so good. The painting and installation of fixtures, plumbing and electrical, was outstanding. In the main bathroom, the toilet had to be moved, the tub had to be replaced with a shower, regular doors were exchanged for sliding pocket doors, and a new vanity was installed.

Throughout this extensive renovation, Leo and Michael were professional and so much more than cordial. My wife needed washroom access with her wheelchair, so they worked first completing one bathroom so she could use the other, then visa versa. When it comes to finishing, this crew is the best! They did an immaculate job and were meticulous about making sure every detail was completed to our satisfaction. When one of the pocket doors turned out to be bowed and rubbing against the frame, Steve immediately installed a temporary door until the new pocket door arrived on order within a couple of weeks. All problems were treated with professionalism and a high level of expertise. When it came time to say good-bye, Steve assured us that if we ever had a problem, we could contact him and he would send someone out to resolve the issue immediately. If you are thinking of getting Bathrooms R Us to do your renovation, you can expect excellence in workmanship and overall satisfaction with a job well done! We are happy to heartily recommend Steve and his crew to you. First-rate from start to finish! I am so glad I decided to have them do our bathrooms.

From the request for a quote to the final inspection-this reno was a pleasure. Leo, Colin and Clay were prompt, professional and exemplary in every way. Steve provided me with great input and suggestions and ensured that work progressed in a very satisfactory way daily (including daily clean up). The 2 bathrooms that were done are more than I hoped for, and we will be having this company reno our 3rd bathroom shortly.

"Steve was absolutely wonderful to work with. From our first meeting I felt confident in going with his company to renovate our bathroom and that they would do the best possible job. Steve and his crew came in with a reasonable quote and did our renovation while we were on holidays. Unfortunately our bathroom was in much worse shape than anticipated, and his crew needed to remove mold, replace the subfloor, put in new drywall, vent the bathroom properly, etc. We trusted Steve to make the right choices for our family and his crew had to work 3 extra days, but they got our bathroom completed properly. When we arrived home, the bathroom was absolutely gorgeous and we feel so much better knowing that it is safe for our family and up to code. We would definitely recommend Bathrooms "R" Us!!"

Dear Steve:

I am so pleased with the recent bathroom(s) upgrade (work) that your team completed recently at my home. I just had to let you know that I would highly recommend you to others who are considering similar work.

Everything was performed well beyond my expectations and very timely, dependable, thoughtful, knowledgeable, careful in other areas of the house, and kept the disturbance to the minimum. Problems that came up were quickly discussed and solved.

It was very pleasant working with you, Steve, from the beginning quote through all the changes that came up as we went along. It was reassuring that you were so accessible with just a telephone call and so helpful in answering my numerous questions.

I would highly recommend your services to anyone looking to replace or correct a bathroom(s) such as mine. My 103 year old home was not easy to work with especially with the subflooring and dated work that was previously there.

I hope you remain eager and motivated as you were for my project. I look forward to working with you soon to finish the other half of the house. Thank You so much for making a possibly stressful project into one that was so beautifully and efficiently completed.
